Champion Crossbred Boar, 2011 STC

A special thanks goes out to Lean Value Sires, Ohio, for their purchase of our Champion Crossbred Boar (Parazzi x Eight Ball) at the 2011 STC. We were very proud to offer this boar and we have no doubt that he will generate excitement. We are very proud and honored to have had a Champion Crossbred Boar at two of the largest national shows: the 2010 NSR Fall Classic in Duncan, Okla., and the 2011 STC. Please call Lean Value Sires at 800.972.8766 for semen orders on this great upcoming herdsire.

Thanks to Center Prairie Genetics, Ill., Tom Olson, Ill., for their purchase of our class-winning Yorkshire boar at the 2011 STC. This boar was out of BG Mr. Structure which was our Indiana State Fair entry that Center Prairie Genetics also purchased from us. The mother of this boar was a Full Dimension, our \$70,000 top-selling boar at the 2008 STC,

purchased by Top Cut Genetics, Ind. This boar was a line bred Full Dimension.

Thanks for all of the wonderful comments from many about the unique pieces this boar offers. His sire, Mr. Structure, certainly carries the name well, being heavy-boned and well-balanced.

Please call Center Prairie Genetics at 815.875.3689 to order semen.

UPCOMING: Foundation gilts and select boars will be offered online in a few weeks. Watch for details. Also, Southwest pigs will be for sale online as well.
